Certification and Accreditation Homework

You are the CO...

For the firewall description on Homework 2 answer the following:

1) Identify a vulnerability (flaw) with the system.

2) For that vuln. identify a threat and its corresponding risk level.

3) Develop a procedure (use slide 37 as a guide) for testing (for) the vuln.

4) Also please give a few words to advise the DAA of an accreditation decision based on your vuln.
