Incident Response due:

Here are some Homework questions for Incident Response presentation
Do not copy directly from the presentation, instead use it as a guide and answer the questions in your own words

1. Why do we need incident response (list them in order of most important goal first, least important last)?

2. What are some incident categories as was said in presentation, give a short explanation of each and a simple example

3. How and what kind of information needs to be shared and with what parties (just some: 3 points or so)?
4. Personnel: how are teams organized and what kind of training should individuals charged with incident response have?
5. List some (3 points) “services” that Incident Response team should provide to the organization
6. What are precursors and indications of the incident (give an example))?
7. List some things, which will help in detection of Incident (3 points).
8. List some things, which will help in the Analysis of the incident (3 points).
